

(a) stem

ResNet

7×7 conv, 64, stride 2

3×3 max pool, stride 2

ResNet-D

3×3 conv, 32, stride 2

3×3 conv, 32

3×3 conv, 64

3×3 max pool, stride 2

each convolution is followed by batch normalization and ReLU

(b) downsampling shortcut

1×1 conv, stride 2

skips 3 of every 4 inputs

2×2 avg pool, stride 2

1×1 conv, stride 1

averages all inputs
